

ARVIA MINI STUDIO

Smart Livestream All-In-One Device

Key Features

- Multi-Platform Broadcasting Apps
- 4K 10Bit Camera
- Octa-core Processor
- Green Screen LIVE
- Rotatable & Detachable
- Prompter Board
- 8K Video Playback

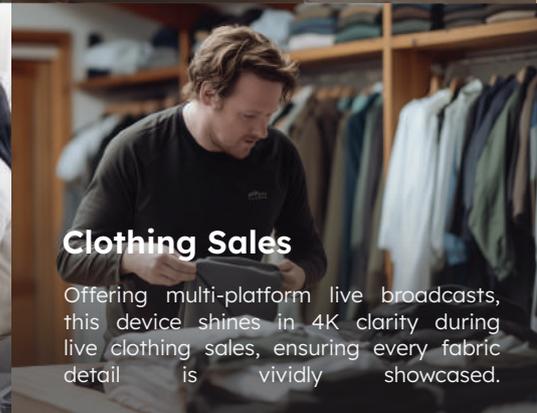

Live Podcast

Offering multi-platform live broadcasts in 4K, this device vividly showcases every fabric detail during live clothing sales.

Group Meeting

Designed for versatility, it enables multi-platform live broadcasting, making group meetings more accessible and dynamic.

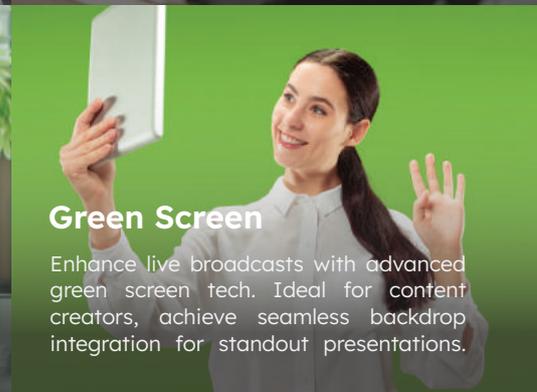

Clothing Sales

Offering multi-platform live broadcasts, this device shines in 4K clarity during live clothing sales, ensuring every fabric detail is vividly showcased.

Live Cooking

Ideal for chefs and food lovers, Arvia enhances culinary content with flawless live broadcasts and recordings, making every dish shine across platforms.

Green Screen

Enhance live broadcasts with advanced green screen tech. Ideal for content creators, achieve seamless backdrop integration for standout presentations.

High Definition Screen, Every Detail Can Be Seen Clearly

Equipped with high-definition LCD panel, the live broadcast picture has more distinct levels, brightness and clarity have been comprehensively improved, and the live broadcast details are more prominent; Up to 10 touch points for smoother operation

Multi touch

Powerful Inner Core Can Withstand Peak Speed

Heimao live broadcast machine uses Rockchip's brand-new flagship AIoT chip RK3588 and adopts 8nm IP process. Equipped with 8-core 64 bit CPU, the main frequency is up to 2.4GHz; Integrated ARM Mali-G610MP4 quad core GPU, built-in AI accelerator NPU, can provide 6TOPs computing power, provide AI beauty, AI body, and AI image enhancement for live broadcast, and greatly improve the live broadcast effect.

8 Core CPU **8nm** Manufacturing process **6TOPs** Artificial intelligence **2.4GHZ** Max. Frequency **8K Ultraclear** Video quality

CPU 8-core A76+A55 main frequency 2.4GHz GPU quad core Mali-G610

Rich Interfaces To Meet Different Live Broadcast Requirements

Heimao live broadcast machine is equipped with more abundant peripheral interfaces, including external digital cameras, USB cameras, microphones, professional sound cards, monitoring headphones, etc., to meet more live broadcast needs.

- Enthusiast DSP chip
- Intelligent Noise Reduction: Eliminate environmental noise
- Stored Sound Effect: Lossless Transmission
- 12 Gear Fine Reverberation adjustment
- 3 Section EQ: Vocal equalization
- Funny Sound Effects
- Interesting Inflection
- Adjustment Control Panel

Interface

Processor	Octa-core A76+A55, 2.4Ghz	Color Gamut Coverage	100% sRGB
Graphic (GPU)	Quad-core Mali-G610	Field Of View	88°
Operating System (OS)	Android	Playback Resolution	Up to 8K UHD
Screen Resolution/Size	1920x1080/15.6 Inch	Camera Sensor	4K UHD

Systems

Battery Capacity	4000 mAh	Touch Point	10-Multi Touch Point
Connection	Wifi 6, IEEE802.11 ax	Ports	2x USB 2.0, 2x USB 3.1 1x Type C, 1x Power Port 2x 3.5mm Audio Input 2x 3.5mm Audio Output 1x 2.5G Network Port
Bluetooth	Yes, 5.2		
HDMI In/Out	4K 2160p 60hz / 8K 4320p 60hz
